 Grants Management & Compliance

## Federal Government Capability Statement

Kundlas Consulting Group is a trusted, HUBZone-certified small business providing engineering, architectural, construction management, disaster recovery, and program management services in support of federal, state, and local government missions. Kundlas delivers technical and operational expertise across emergency management, hazard mitigation, A/E design, construction management (PM/CM, CM/CI), and complex program delivery, with a proven ability to execute mission-critical initiatives in demanding regulatory environments. Operating within a CMMC Level 2-aligned secure environment, Kundlas supports defense, infrastructure, and federally funded programs requiring controlled unclassified information (CUI) protection. Our teams deliver client-focused, rapid-deployment execution, integrating engineering rigor, compliance assurance, and program controls across the full project lifecycle—from planning and design through construction, closeout, and audit readiness.

## Differentiators

Kundlas stands out due to our multidisciplinary, engineering-driven approach that integrates planning, design, construction management, and program delivery across the full project lifecycle. We deliver practical, defensible solutions with a strong emphasis on technical rigor, regulatory compliance, audit readiness, and disciplined execution; ensuring mission-ready infrastructure, efficient delivery, and resilient outcomes.
